**PRESIDENT TESTIFIES TODAY BEFORE  
COMMITTEE**

**Questioned by Inquisitor Hughes Re-  
garding Payment of \$100,000  
to Andrew Hamilton.**

New York, Sept. 20.—John A. McCall, president of the New York Life Insurance company, today before the legislative insurance investigating committee, illuminated the power with which he directed the use of the company's funds without let or hindrance. His control, according to his testimony, is absolute.

President McCall was questioned by Inquisitor Hughes regarding a \$100,000 payment to Andrew Hamilton, who is employed in the legal department of the company, and who has much to do in legislative matters in Albany. Mr. McCall said the payment was made for a real estate transaction. McCall said he had given Hamilton \$75,000 additional. He said Hamilton had given him no idea what was done with the money. He also admitted making other advances. McCall dramatically exclaimed: "The money belongs to the New York Life and will be produced on demand. I'll guarantee it." He admitted that the company contributed to the last three Republican National campaign funds.

## PLEADS GUILTY

**Former Wagon Workers' Union  
President Will Take the  
Witness Stand.**

Chicago, Sept. 20.—George Meller, former president of the Carriage and Wagon Workers' Union, pleaded guilty today to charges against him in connection with the alleged "slugging" and murder of Christopher Carlstrom on April 12. Meller was indicted with four other members of the union for conspiracy and assault with intent to commit murder. He announced that he would take the witness stand.

## ROYAL ARCANUM

**Meeting of Representatives Held in  
New York—Committee of 15 To  
Be Named.**

New York, Sept. 20.—A meeting of the representatives of the state committees from subordinate councils of the Royal Arcanum was held here. Resolutions were adopted calling for the appointment of an executive committee of 15 with full power to act for the conference, and to be instructed "to cause proceedings to be taken for injunction and ordinary and other provisional relief as it may deem best calculated to secure an early adjustment of the illegality and invalidity of the new laws concerning assessments recently enacted by the supreme council and abolishing the previous laws of assessments in full force."

## BANKER SENTENCED

Chicago, Sept. 20.—W. H. Hunt, president of the Pan-American bank, which he wrecked, was sentenced to the penitentiary today for three years and ordered to pay a fine of twice the amount of his embezzlement.

### COMMISSIONERS MEET.

Karlstadt, Sept. 20.—The commissioners of Sweden and Norway who are in charge of the negotiations looking to the dissolution of the union between the two countries met at noon today for another conference.

### INJUNCTION PREVENTS SALE.

Chicago, Sept. 20.—Injunction proceedings which were brought yesterday against officials of the Western Life Indemnity company, have had the effect of temporarily preventing the sale of the concern, pending a hearing of the suit September 26.

ment Insurance Association.**

**CHARGES OF FRAUD MADE**

Certain Officials Alleged to Have Voted to Themselves Funds of the Society, Plaintiffs Averring That Thousands Were Taken Secretly. Concern Has \$20,000,000 in Policies.

Chicago, Sept. 20.—In a suit for receiver and accounting filed against present and former officials of the Western Life Indemnity company, an assessment insurance association, charges are made of fraud, misapplication of trust funds and attempts to transfer assets to another concern. E. I. Rosenfeld and W. H. Gray, the latter being the organizer of the association, are prominently mentioned in the bill in connection with alleged fraudulent voting of funds to themselves, and the bill was filed in the United States circuit court by Attorney S. Levison, representing numerous policyholders. Later Attorney Levison went before Judge Betha on a motion for the issuance of a restraining order stopping a meeting of the officials of the company to be held Thursday. The motion met with resistance by the defendants. Gray is alleged to have secured proxies from the thousands of members and thus controlled the directors. By securing this control, it is alleged, Gray had passed a resolution voting him the right by contract to draw \$1 for each \$1,000 insurance issued. This was done in secret, it is charged, and although the complaining policyholders recently learned of it, they were refused information by Rosenfeld, Gray and others. It is declared further that Gray and his associates by other fraudulent means took many other thousands of dollars from the concern without knowledge of the policyholders.

The complainants are Allen W. Field, Jesse B. Strode and Addison S. Tibbitts, and the defendants, besides the insurance company—Rosenfeld and Gray—are George M. Moulton, John A. Crawford, L. M. Martin, C. C. Drake, D. D. Bramble, A. B. Huston, E. K. Moore and A. N. Hislop. Each of the defendants are residents of Lincoln, Neb. The defendant company is the successor of the Knights Templar and Mason Life Indemnity company, organized in 1884, and has more than \$20,000,000 in policies outstanding.

After considerable argument by counsel for both sides it was agreed that the case be continued until next Tuesday and that in the meantime matters should remain in statu quo. The defending lawyers agreed that the meeting of the officials of the insurance company which was to have been held Thursday should be convened and immediately adjourned.

## OPERATORS

**Oppose Miners' Demands—One of the  
Big Men at Scranton Makes a  
Statement.**

Scranton, Pa., Sept. 20.—One of the biggest coal operators in this region, who has just come from Philadelphia, where he had a conference with President Baer of the Reading, declared unhesitatingly, and for publication, that the operators will not under any circumstances grant the demand of the mine workers for an eight-hour day, and that they propose to agree only that the present agreement shall be continued. Announcement to this effect will be made, he said, after the miners hold their convention in Shamokin, Dec. 14. "An eight-hour day," the operator continued, "would be equivalent to a 12 per cent increase in the miners' wages. If we granted that it would be necessary for us to raise the price of coal, and the public would not stand for that. We are willing, however, to readopt the present agreement with the miners, perhaps with some modifications that can be mutually decided upon."

## UNATTENDED

**By Officers of the Law, Barfield Pur-  
chased a Ticket and Went To  
the Penitentiary.**

Nashville, Tenn., Sept. 20.—W. A. Barfield, convicted in Lauderdale county of manslaughter and sentenced to serve one year in prison, arrived in Nashville yesterday and went at once to the penitentiary. He said he had come to serve his term. He donned the stripes and went behind the bars. At Ripley Barfield got the necessary papers committing him to prison, bought his own railroad ticket and came to Nashville unattended. The authorities at Ripley had every confidence in his promise to come on to Nashville and therefore decided not to send a guard with him.

Barfield's case has been in court several years, he having been sentenced to serve 20 years on his first trial.

## MR. CARNEGIE

**May be Asked to Take Back  
Library He Gave an  
Indiana Town.**

Portland, Ind., Sept. 20.—The Carnegie library here was closed yesterday owing to lack of funds to support it, and it is probable that Mr. Carnegie will be asked to take back the library, which was erected with his gift of \$15,000. The public paid for the real estate, and of course, if the library is given back to Carnegie the real estate will go with it. What to do with the library has been worrying the town officials more than the lack of literature before the gift was made.

## GAMBLER AWAY STATE'S FUNDS

**Says Governor Hanley of the Former  
Auditor of Indiana.**

**AIRES THE CASE IN A SPEECH**

Claims Sherrick Distributed Railway Passes Among the Legislators and That Some of the Commonwealth's Money Went Into Wildcat Securities—Synopsis of the Charges.

Hamilton, Ind., Sept. 20.—Governor Hanley, the principal speaker at the reunion of the Thirtieth Indiana regiment here, in an address made public his reasons for his action in the case of David E. Sherrick, ex-auditor of state, whose resignation was forced by the governor. Facts and figures were used to show what became of the money belonging to the state that was lost by "David E. Sherrick, auditor of state and common gambler." The governor charged that \$10,000 of the state's money went by "check into the hands of the gentleman who was then operating the Casino," at French Lick. The governor then enumerated a list of what he calls "wildcat" securities, aggregating a face value of \$75,000, into which the state's money went. He also accused Sherrick of drunkenness.

He charged that Sherrick, at the time the Monon railroad came up for assessment, argued that the assessment be allowed to remain at \$18,000 a mile because in that case a friend of his, to whom he was under great obligation personally, could get permanent employment with the company if the assessment could be kept at \$18,000.

The governor continued: "Before my inauguration I received trustworthy information that he had written to the management of several railroad companies in the month of December, 1904, over his own signature, as auditor of state, asking them to send him all passes intended for members of the general assembly, then about to convene, stating, in substance, that he expected to have some legislation of personal interest to himself before that body, and if they would send their transportation to him for distribution, he would see that their interests and his were cared for at the same time. For three weeks the office of the auditor of state was made a broker's office for the distribution of free passes to such members of the general assembly as would receive them."

### Nebraska Democrats.

Lincoln, Neb., Sept. 20.—Nebraska Democrats and Populists are holding their state conventions here, but in separate halls. It is thought the same ticket will be nominated by both conventions without a formal declaration for fusion. Judge William G. Hastings of Saline county is the only prominent candidate for justice of the supreme court, and his name is looked for in the Democratic convention. Chairman Weber of the Populist state convention said that he believed Judge Hastings would be satisfactory to the Populists. W. J. Bryan is a delegate to the Democratic convention.

## PEARSON'S GIFT

**To a Montana College Makes \$365,000  
Given To Small Colleges During  
the Present Year.**

Chicago, Sept. 20.—Dr. D. K. Pearson of this city has given \$25,000 to the Montana college and school of manual arts at Deer Lodge, Mont. Some months ago Dr. Pearson's firm formed the trustees of the school that he would give them \$25,000 if they would raise an additional \$75,000. "They have notified me that the amount is now practically secured and I have fulfilled my promise," said Dr. Pearson. "This contribution makes \$26,000 I have given to small colleges during the year. That closes the circle for this year."

## ASKS RETURN OF THE MONEY

**Paid by the Equitable Life Society  
to a Trust Company.**

**MORTON HOLDS ACT INVALID**

Claims in a Published Report That the Payments Were Made Without Authority—Large Sums Said to Have Been Spent to Save Loans Made on Worthless Security.

New York, Sept. 20.—President Morton of the Equitable Life Assurance society, in a report to the directors, states that the Equitable has paid out \$218,264 to the Mercantile Trust company in connection with certain loans known as the "Turner loans," and that these payments were without authority, so far as the records of the society disclose.

These transactions occurred in what Mr. Morton refers to as the "Turner loan." This loan Mr. Morton's report sets forth, was carried in 1894 by the Western National bank, which was controlled by the Equitable Life Assurance society. The collateral for the loan was objected to by a bank examiner, and Henry B. Hyde then agreed to transfer the loan and collateral to the Mercantile Trust company. At that time, apparently, the loan amounted to \$661,491. G. V. Turner, in whose name the loan stood, was secretary to Louis Fitzgerald, then president of the Mercantile Trust company and a close business associate of Henry B. Hyde. The loan was guaranteed by Marcellus Harley, John E. Seales, Louis Fitzgerald, W. N. Coler, Jr., and H. B. Hyde. On March 21, 1895, the same guarantors renewed their guarantee, the loan having grown to \$1,276,478, the increase being due to attempts to develop the property on which the collateral for the loan was made. Part of this collateral was given by John W. Young and consisted of Salt Lake and Eastern railway stock and other Salt Lake stocks. This collateral proved to be of little value. Other collateral consisted of contracts of the Kentucky Mineral and Timber company and the Amity Land and Irrigation company of Colorado.

Attempts were made to develop the Kentucky property and the Colorado property, and large sums were expended for that purpose, and by July 1, 1905, the cost of the Kentucky property stood at \$619,087, and the Colorado property at \$2,809,832. The Equitable Assurance society paid the Mercantile Trust company \$218,264 on these loans on Jan. 23, 1900, and \$500,000 on Feb. 4, 1904. "The records of the society," said Mr. Morton, "disclose no authority whatever for these payments, and the cash entries in respect to them were very obscure. Mr. Morton referred the matter to special counsel, who have assured him that the Equitable Life Assurance society is not responsible for the loans. Mr. Morton has also notified the Mercantile Trust company that he will expect it to repay the \$718,264 paid to it by the Equitable Life society."

Coming to the mysterious \$685,000 loan made by the Mercantile Trust company on the "J. W. A. No. 3 account," Mr. Morton found that no such loan had been authorized by the society and he repudiated it. The "J. W. A. No. 3 account" loan was repaid recently by individuals. Mr. Morton discovered, however, that from 1901 to 1904 the Equitable paid \$265,000 on this loan, and he has instructed counsel "to take the necessary proceedings to recover these amounts for the society."

## MORMONS SAID TO HAVE DECREED DEATH OF SENATOR FRANK J. CANNON

**Mrs. Schoff, President of National Mothers Congress  
Makes Statement and Claims to Have Secured De-  
tails of Endowment House Ceremonies Which  
She Will Make Public.**

Denver, Sept. 20.—That Senator Frank J. Cannon has been condemned to die by the Mormons is the statement of Mrs. Schoff, president of the National Mothers' congress who has just returned from a lengthy investigation of conditions in Utah.

She says the senator's secretary has been warned not to be seen in his employer's company too much, else he may be blown up by the same bomb of hit by the same bullet.

Mrs. Schoff says she and her friends are "fighting for New York high school girls who are enticed by Mormon agents to Salt Lake City under the promises of alluring business positions." She declares that all Mormons are working to secure control of the Federal Government and says they believe they will succeed. Mrs. Schoff says she has secured the full endowment house ceremony, adding: "It lasts from 7 o'clock in the morning until 4 o'clock in the evening and it is horrible. I am going to expose it in the East, expose it so the American people will know the baseness of the Mormons."

Mrs. Schoff addressed a large audience of Denver women on Mormonism today.

Chairman Dick's Scheme to Make Any National Question An Issue Is Thoroughly Ridiculed.

Columbus, O., Sept. 20.—Harvey Garber, chairman of the Democratic State Executive committee, is not in a statement in which he takes issue with Senator Charles Dick, who, a few days ago, announced that the paramount issue of the coming campaign would be the tariff.

Garber calls attention to the editorial of a leading Republican organ in which it is confessed as a surprise that the Republican State Chairman would make such an announcement. Following this Garber says: "That the election of John M. Patterson as governor in a year when no congressman or senator is to be elected and in the very year when President Roosevelt was inaugurated, and the new congress elected with him having nearly 100 Republican majority, and which congress does not convene until after Mr. Patterson is elected, well, as Chairman Dick says, have a purpose effect on the minds of the nation as a whole, and the election of Governor Patterson will be a surprise to the people who are anxious to see Governor Patterson elected."

## EXECUTIVE MAY VETO ORDINANCE

**MR. JEFFREY WANTS TO LEARN  
ATTITUDE OF COMPANY REG-  
ULATING TRANSFERS.**

City Solicitor Defers Filing Suit To Test the Action of the City Council.

Columbus, Sept. 20.—Mayor Jeffrey may veto the ordinance releasing the Columbus, Buckeye Lake and Newark Traction company from the loop requirement. The Columbus city council took action on this matter last Monday night.

Mayor Jeffrey does not say so, but he refrained from signing it until he learns the attitude of the company on the same transfer amendment. He said, "I will wait the officers of the company what they propose to do with reference to the amendment, requiring the company to give transfers to any point on the loop."

City Solicitor Butler said it would require some days to prepare the papers in the proposed suit to test the company's action on the loop dispute. He said he would not act until the mayor had reached a decision as to whether to veto the ordinance.

TOLEDO LAST NIGHT**

**Live News Dispatches to the Advocate  
from Every Section of the  
Buckeye State.**

Marietta, O., Sept. 20.—George M. Cooke, a prominent newspaper man, formerly owner of The Leader, is today missing. A note has been found establishing a clue to suicide. He had been despondent owing to his wife's failing health. The note stated he would never see her again. A hat found floating in the Muskingum river has been identified as his and footprints on the bank of the river are supposed to mark the place where he entered the water. Hundreds are dragging the river today to recover the body.

**Standard Oil Millions.**  
Toledo, O., Sept. 20.—According to estimate of conservative oil men the Standard Oil company has realized between \$20,000,000 and \$25,000,000 during the past year in oil business alone. The recent advances are a reaction from the declining market that sent oil prices down 50 cents some months ago. Since that time prices of crude oils have been nominally unchanged until last week.

**Midnight Toledo Murder.**  
Toledo, Sept. 20.—A man supposed to be Joseph Fisher, a plasterer, of Chicago, was shot and killed in Herbert's saloon, Point Place, at midnight, by a companion whose identity is not known and who escaped.

**Laborer Drops to Death.**  
Cleveland, O., Sept. 20.—Caught on the end of the Big Four jackknife bridge, John Finn, a laborer, was hoisted 90 feet into the air when the bridge was raised to allow a boat to pass up the river. For fully five minutes he was suspended in midair, clinging to the top of the bridge. Finally, as the bridge was about to be lowered, his strength gave way and he fell to the docks 90 feet below, fracturing every bone in his body. He was picked up by a watchman, but before the hospital could be reached the man died.

**Heirs Found Gold.**  
Springfield, O., Sept. 20.—Heirs of the late Eliza Meharry Jeffers found \$10,595, nearly all in gold, in a little old black trunk in the attic of the family home of Mrs. Jeffers. The fact was brought out in the settlement of her estate that during her life she had given large sums to educational institutions. Ohio Wesleyan university had received \$60,000 and Depauw \$85,000. She died two months ago at the age of 51, and had lived with relatives during the closing years of her life.

**Tragedy at a Wedding.**  
Stevensville, O., Sept. 20.—What will prove a murder took place in the Mazur section of the city while a wedding celebration was in progress. ## WOMEN'S CLUBS

Rule Out All Social Frivolities From the State Meeting To Be Held in Zanesville.

The Ohio Federation of Women's Clubs has ruled out all social frivolities from the three days of its state convention in Zanesville in October.

Thoughtful club women have long felt that entertainments, receptions, etc., were a total unnecessary adjunct to these yearly conferences. It may be interesting to know that club women of other states are of the same opinion.

The exclusion of afternoon receptions, with their pink teas, costly gowns and other luxuries, from local state and national meetings of women's clubs was advocated by Mrs. James Frake of Chicago, president of the State Federation of Women's Clubs, in her address before the Sixth Congressional district convention of Women's Clubs held last week in Maywood. She contended that the receptions usually given were extravagant and unbusinesslike.

"It seems to me," said Mrs. Frake, to 200 women in attendance, "that it is a waste of time for women to spend hours that ought to be devoted to work of the clubs in gossiping at afternoon receptions."

"The general federation meetings should stand for the average home, where luxuries are the exception. We should go to conventions to transact business rather than devote our time to pleasure."

### The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter, he says: "I was nearly dead of these complaints, and although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure Dyspepsia, Biliousness and Kidney Disease, by Hall's Drug Store, at 50c a bottle.

## SILVER WEDDING

Celebrated By Mr. and Mrs. T. W. Shannon, of Madison Township—Many Attend the Gathering.

September 12, 1905, will be a date long remembered by Mr. and Mrs. T. W. Shannon, of Madison township, it being the twenty-fifth anniversary of their wedding day. Their son, Mr. Webster Shannon, and their daughter, Mrs. Laura Morrison, planned a surprise on their father and mother.

Invitations to a large number were sent out, but owing to sickness and death of a little one belonging to the family connection, quite a number of invited guests were necessarily absent. But neighbors and friends to the number of about one hundred and twenty-five gathered at the fine country home of Mr. and Mrs. Shannon, bringing with them well-filled baskets. Mrs. Shannon having been apprised of their coming, was ready to receive the guests, and the guests received a royal reception at the hands of Mrs. Shannon.

But Mr. Shannon knowing nothing about the party, together with his son, Webster, had gone to the cornfield to cut corn, and about 11 o'clock, after the company had arrived, Mrs. Shannon rang the dinner bell and in a few minutes Mr. Shannon appeared on the scene, dressed in the garb of a corn-cutter and received the surprise of his life, for his house and extensive yard were filled with neighbors and friends, and the barn and barnyard were filled with horses and buggies, and he could not imagine what it all meant until someone asked him how long he had been married, then it dawned upon him that they had come to celebrate with him his silver wedding.

Recovering somewhat from his surprise he extended a royal welcome to his many friends.

Just before noon a load of lumber was driven into the beautiful grove, near by, and with hammer and ax and saw the boys soon had an improvised table.

Then the ladies began unloading those baskets, and when that table was spread it fairly groaned under the weight of good things.

Dinner being called the guests gathered around the board with the bride and groom at the head of the table, and thanks being returned to the giver of all good gifts, they partook of a most excellent dinner.

After the dinner the time was spent in music and social converse until evening, when, by arrangement, some valuable presents were made to the bride and groom, in a few remarks by one of the guests, after which the company retired to their homes wishing many happy returns to the anniversary of the wedding of Mr. and Mrs. Shannon. ## MARY'S LAMB

And Other Verses Recited By Shop-mates of "Old Tom," Who Went Mushroom Hunting Sunday.

"Old Tom," as he is known at the Wehrle foundry, where he is a popular molder, went out Sunday to hunt mushrooms. He found these and all so trouble for him—

He was starting home, so he says, when he met a flock of sheep. He was not frightened at the time, but the flock divided going on either side of him, leaving one lone ram in the open. This ram was not frightened, either, and immediately went to the attack which was disastrous to "Old Tom" and his basket of mushrooms.

"Buddy and 'Joe,' who work near 'Tom,' have been singing, 'Didn't He Ramble,' and reciting 'Mary's Lamb,' in stentorian tones ever since the adventure to the immense amusement of the shop force of molders.

Mrs. Minton Pays All Expenses of the Sugar Loaf Monument—Committees Submit Reports.

Granville, O., Sept. 19.—What was expected to be the last meeting of the executive committee of the Granville Centennial association, was held last night in the Town Hall, with Mrs. Hines presiding, and nearly all of the committee present.

Mr. G. S. Graham, chairman of the finance committee, was able to report only in part, as not quite all of the collections have been made, nor all the bills in shape to be authorized by the committee. However, his report made clear the fact that the association, is able to pay out in good shape, and by next week it is confidently expected an itemized account can be submitted. The finance committee has done some good work, and certainly deserves special mention, as the Granville Centennial was not a cheap show in any sense of the word, and would have cost vastly more in hard cash, if every worker had received full value for his or her labor.

The art souvenir committee reported a balance on hand of \$214, besides properties valued at nearly \$150.00, with the exception of these belongings of the souvenir committee, it was voted to make over to the Granville Historical Society all properties of the Centennial association.

Prof. W. H. Johnson, chairman of the Granville Day committee, reported that owing to the generosity of Mrs. G. V. Minton of Westfield, N. Y., in assuming the entire financial burden of the memorial monument, his committee had no bills to present, whereupon a vote of thanks was accorded Mrs. Minton.

The courtesy shown by The Advocate toward this Granville enterprise during the entire year and a half, was also commented upon and a vote of thanks tendered.

Appreciation of Mr. J. R. Harrington's interest and good will, so materially manifested, has already been published by the secretary, and a formal vote of thanks was sent him last week.

Now inquiries are rife, as to the possibility of buying any of the quaint old household stuff exhibited during the week, especially the rugs and the counterpanes.

Another gross of the "coat of arms spoons" will be received and Mrs. A. K. Pollett, or Mrs. Burton Case, will take orders. Mrs. L. E. Davis, Miss Irene Jones and Mrs. W. H. Kussmaul are taking orders for the cook book, and Mrs. E. S. Shepardson for the Centennial Quarterly.

## DR. HARPER AGAIN UNDER THE KNIFE

President of Chicago University Operated Upon Sunday—Will Be Around in a Few Days.

Chicago, Sept. 19.—President Harper of the University of Chicago, has undergone another operation and, according to a statement by his family, he is resting comfortably. The operation, which was performed Sunday night, is said to have been but a slight one to relieve intestinal retention, and although there is much apprehension felt over his condition at the university, members of his family are confident he will rally quickly. The statement of his physicians is that he will be up and about his usual affairs within a few days.

This is the third time within the last year and a half Dr. Harper has been on the operating table.

## MASTERPIECE OF "SUNSET" COX

Following is the famous editorial Samuel S. Cox," by W. V. Cox and M. Samuel S. Cox," by W. V. Cox and W. H. Northrop. It is called, "Sunset" Cox's masterpiece:

"What a stormy sunset was that of last night! How glorious the storm and how splendid the setting of the sun! We do not remember ever to have seen the like on our round globe. The scene opened in the West, with a whole horizon full of golden impenetrating lustre, which colored the foliage and brightened every object in its own rich dyes. The colors grew deeper and richer, until the golden lustre was transformed into a storm-cloud, full of finest lightning, which leaped in dazzling zigzags all around and over the city. The wind arose with fury, the slender shrubs and quaint trees made obeisance to its majesty. Some even snapped before its force. The strawberry beds and grass plots 'turned up their whites' to see Zephyrus march by. As the rain came, and the pools formed, and the gutters hurried away, thunder roared grandly, and the fire bells caught the excitement and rung with hearty chorus. The South and East received copious showers, and the West all at once brightened up in a long, polished belt of azure, worthy of a Sicilian sky. Presently a cloud appeared in the azure belt, in the form of a castellated city. It became more vivid, revealing strange forms of peerless fanes and alabaster temples, and glories rare and grand in this mundane sphere. It reminds us of Wordsworth's splendid verse in his Excursion:

"The appearance instantaneously disclosed

Was of a mighty city, boldly say  
A wilderness of building, sinking far  
And self-withdrawn into wondrous depth.

Far sinking into splendor without end."

"But the city vanished only to give place to another isle, where the most beautiful forms of foliage appeared, imaging a paradise in the distant and purified air. The sun, wearied of the elemental commotion, sank behind the green plains of the west. The 'great eye in heaven,' however, went not down without a dark brow hanging over its departing light. The rich flush of the unearthly light had passed and the rain ceased; when the solemn church bells pealed; the laughter of the children, out in the air and joyous after the storm, is heard with the carol of birds; while the forked and purple weapon of the skies still darted illuminations around the Starling college, trying to rival its angles and leap into its dark windows. Candles are lighted. The piano strikes up. We feel that it is good to have a home—good to be on earth where such revelations of beauty and power may be made.

"And as we cannot refrain from reminding our readers of everything wonderful in our city, we have begun and ended our feeble eulogium of a sunset which comes so rarely, that its glory should be committed to immortal type."

### \$100 REWARD. \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and evening the surface of the mucous membrane, and restoring it to its normal condition. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75 cents. Hall's Family Pills are the best.

## DELAY PROBABLE IN ISSUING DIVIDENDS

Referee Thinks That It Will Be Six Months Before Conditions Will Warrant Another Dividend.

Columbus, O., Sept. 20.—In an interview here it is learned that it may be a year, at least hardly sooner than six months, before the creditors of the Newark Savings bank and the Homestead Building and Loan association, the two Newark, O., institutions, which the Lingafelter family is accused of wrecking, receive a dividend on their claims.

Charles M. Rogers, referee in bankruptcy, returned Monday evening from Newark where he is conducting the bankruptcy case of J. F. Lingafelter, against whom the bank and association hold claims aggregating \$120,000.

In reference to the above interview Receiver George P. Webb refused to make any statement, saying that he did not care to talk for publication. He did say, however, that he was working on the matter each day and that he might be enabled to issue a dividend soon and it might be quite a while before the conditions would permit such an action. He said: "We are making collections every day and are straightening the affairs out as rapidly as possible."

Attorney Edward Kibler was seen, but declined to say anything regarding the matter.

## FIRE MARSHAL TO MAYOR CRILLY

THREE ORDINANCES RECOMMENDED FOR PASSAGE BY CITY COUNCIL.

Mayor Crilly Says He Will Present Measures To Council and Urge Their Passage.

Mayor Crilly has received a letter from State Fire Marshal Davis, accompanied by copies of three ordinances regarding the prevention of fires. The letter urges that the ordinances be passed by the city council. One ordinance specifies how pipes for natural gas shall be laid in the streets and alleys of the city and provides that the pipes shall be of a certain material specified in the ordinance. A maximum pressure is named and a penalty is provided for the violation of the ordinance.

Another ordinance prohibits the carrying of a light into any building where there is danger of fire unless it be properly protected as a lamp or lantern. It is also prohibited in this ordinance to store inflammable material in an open building. Special provisions are made for the storing of explosives, such as oils, gun powder, and nitro-glycerine. The latter explosive will not be allowed in the city limits under any circumstances if this ordinance becomes a law and is rigidly enforced.

The third ordinance provides for an inspection of all residences of the city twice each year and every business house every two months. This latter precaution is taken by the local fire department in the business district.

Mayor Crilly stated that he would present these ordinances to the city council with a recommendation that they be acted upon at once.

Mr. and Mrs. Mays of Pocahontas, Va., are visiting at the home of Mr. F. L. Imbody on their wedding tour. They will visit other Buckeye cities before they return home.

### CARD OF THANKS.

In behalf of the family, I wish to extend our sincere thanks to the friends and neighbors who so kindly assisted us during the sickness and death of my father, and for the beautiful flowers which were so freely contributed. Assuring you that all were fully appreciated. I am, C. E. Jamison.

### SUSPECT

Said to Have Doctored Masters of an Electric Company.

New York, Sept. 20.—In the arrest of David Chatterton the police are of the opinion that they have run to earth the first of a gang of swindlers whose operations have puzzled the officials of the New York Edison Electric company for over a year and have caused a loss to the company of from \$50,000 to \$75,000 within that time. According to the police the method employed by the swindlers was to have one of their number go to a subscriber of the company and make a proposition to reduce the bill of the company at least one-half, providing whereby the subscriber pay the man who made the proposition one-half the money thus saved. The reduction in the amount of electricity registered by the meter was effected by the device of putting in a concealed loop or switch running outside the meter. Chatterton, it is alleged, was engaged in putting in one of these switches when he was arrested. Many other arrests are expected.

Suit costs the producer less than one-tenth of a cent a pound.

## MISS ROOSEVELT'S PRANK.

President's Daughter, Fully Dressed, Plunged Into Bathing Tank.

The San Francisco Examiner recently printed the following from Honolulu: The transport Sheridan, which arrived at Honolulu a few days ago from Manila, by way of Nagasaki, brings a story of Miss Alice Roosevelt, the president's daughter, who is with the Taft party, that shows her in a most interesting and unconventional role.

It was a hot morning a day after the Manchuria had left Nagasaki for Manila. On the forward deck, just below the bridge, a large canvas bathing tank had been erected for the members of the Taft party. On this particular morning Miss Roosevelt stood near the tank, bat off, but with a pretty silk parasol to protect her from the sun's rays. She was wearing a dainty white suit and a creamy colored skirt, also of silk. On her feet were slippers of tan.

"Mr. Longworth," she remarked to that representative, according to the story brought by the Sheridan, "if you will take a plunge, dressed as you are, I will follow suit."

But Mr. Longworth, who was arrayed in a blue coat, flannel trousers and white duck shoes, surveyed with satisfaction the water, looked at the darling girl and then shrugged his shoulders by way of objection.

"Well, if you don't dare, I do," was Miss Roosevelt's remarks, and before the dozen or more members of the Taft party who were on the scene could make an exclamation of surprise Miss Roosevelt had tossed her parasol aside and, dressed as she was, leaped into the tank.

"Don't you take a dare?" she merrily shouted from the tank to Mr. Longworth as she arose to the surface and started to swim as gracefully as her bedraggled clothing would allow. This bantering was too much for him, and he plunged into the tank and helped Miss Roosevelt to a step, where they both climbed up and out of the water.

### DRY DOCK'S LONG TRIP.

Half Mile Towline to Be Used in Taking Structure to Cavite.

A new idea in navigation is to be employed in taking the huge floating dry dock now anchored near Baltimore to Cavite, in the Philippine Islands, says a Washington special dispatch to the New York Times. A collier which can carry a large supply of coal will be used to tow the big structure, and a tug will be taken as a tender to help steer in narrow channels.

The collier will be placed about half a mile ahead of the dock to avoid being smashed in case of a gale. Half of the line connecting the two will be wire and the other half rope in order to secure great strength and elasticity. The dock in fair weather will be down about six feet in the water, but in a storm she will be sunk thirty feet, and the collier and tug will ride at anchor tied to her.

It is believed that the dock at this depth will ride as quietly as if in calm water. The distance to be traveled is 15,000 miles, and at the rate of 100 miles a day it will take five months to get to Cavite. The dock is 500 feet long and 134 feet wide, 63 feet high and weighs 11,000 tons. Unless she is driven on a lee shore there is little fear that she will meet with any trouble. The start will be made in October.

### Fine Lighthouse System For Canada.

Canada soon will have one of the best lighthouse systems in the world, says a special dispatch from Ottawa to the Chicago Record-Herald. A general scheme has been mapped out for relighting the St. Lawrence river and gulf and the Atlantic seaboard. Arrangements are now being made for installing the first light of the series on Ganong rock, in the bay of Fundy. It will be a second order double flashing light. Soon after another light will be placed on the St. Lawrence at Martin river and will be of the third order quadruple flashing light. The new hyper radial light which will be placed at Cape Race, N. E., probably will be the most powerful in the world with the exception of a few electric light-houses in foreign countries. Quick flashing lights, using petroleum vapor lamps, will replace the old fashioned reflector lights, fixed and revolving, in which coal oil lamps were used.

### Pennsylvania's Bear Section.

The bear hunters of central Pennsylvania are getting ready for the hunting season, which extends from Oct. 1 to March 1, says the Philadelphia Record. Formerly brum was an outlaw all the year round; but, the law having become his protector for seven months in the year, his tribe is expected to multiply and furnish rare sport for the woodsmen. The bear section of Pennsylvania is chiefly located in the counties of Clearfield, Clinton, Cameron, Potter, Lycoming, Sullivan, Monroe and Pike, although bears are to be found in all the counties traversed by the Allegheny range. The Bear Creek and Fall Brook districts alone furnished twenty-two black bears to the hunters last season.

### Stock Quotations on Trains.

Arrangements were recently made whereby ticker quotations from Wall street in New York are to be delivered to patrons of the Lackawanna at Scranton on all the important trains arriving there during Stock Exchange hours.

### A French Peril.

## HOW JAPAN IS PUSHING TRADE

Bound to Reach Ends of World to Buy and Sell.

### SIGNS OF ACTIVITY EVERYWHERE

Island Kingdom Has Thirty Ports Open to Foreign Trade—Osaka, Japan's Liverpool, a Veritable Beehive of Human Industry—How Korean Commerce Has Been Promoted—Scientific Methods Overcoming Natural Hindrances.

Japan, now that peace has been secured, is evidently preparing for an era of commercial development which promises to be unparalleled in the history of the Island Kingdom, says the Washington correspondent of the New York Tribune. Already reports have reached the bureau of manufactures to the effect that Japan is to establish a line of steamers to South America for the purpose of importing food products. The officials of the bureau say that the purpose of the line is to get cheap wheat from Argentina. Rice eating, even in the army, is giving way to the use of bread made from wheat or other cereals. As will be seen by reference to Japan's wonderful work in 1904-05 in trade, that country is bound to go out to the ends of the earth to buy and sell. The Japanese government recently charged its representatives in Brazil to collect and report information concerning present trade relations and possibilities between Brazil and Japan, with a view to their further development.

Reviewing recent commercial developments in Japan, the bureau of manufactures says:

Japan has thirty ports open to foreign trade. At four of these in 1902 Japanese vessels registering 19,009,745 tons and foreign ships of 12,092,615 tons cleared. Osaka, sometimes called the Liverpool of Japan, as Japan is often called the England of the east, is a veritable beehive of human industry. Day and night there is a ceaseless whirl of wheels, a murmur of machinery, a rattle of carts. It has a million of people. Eight years ago \$11,250,000 was appropriated to build docks, improve its harbor, etc., with a view to what will be wanted when the Panama canal is cut. Nine million dollars have been spent. It is thought that from \$15,000,000 to \$20,000,000 more will be expended before the city has what its engineers deem necessary. Everywhere one finds the people busy not only in the work of today, but building for tomorrow. Breakwaters, dikes, piers, wharves, warehouses equal to those of Liverpool, London or Hamburg are being built.

In 1884 the imports of Japan were valued at \$25,000,000, of which the United States supplied \$2,000,000 and Great Britain \$11,000,000. In 1904 Japan bought \$185,000,000, of which we furnished \$20,000,000 and Great Britain \$37,000,000. The chief items were:

Mineral oils	\$5,500,000
Flour	4,000,000
Raw cotton	4,500,000
Machinery	2,000,000
Iron and steel goods	1,900,000
Leather	1,700,000
Cotton manufactures	1,100,000

followed by wheat, other cereals, canned provisions, cars and carriages, leaf tobacco and coal, in the order named, the last five showing figures of less than \$1,000,000.

Japan's exports in 1904 amounted to \$159,000,000. The principal buyers were:

United States	\$50,423,000
China	33,857,000
France	18,087,000
Hong Kong	14,024,000
Korea	10,134,000
Great Britain	8,787,000
Italy	6,011,000

The purchases of the United States amounted to one-third of Japan's total exports. The growth of Japan's exports in the last twenty years is shown by the annexed table, which gives the values for the year terminating each decade. The share of the United States is also shown:

Year.	Exports.	Our share.
1884	\$29,900,000	\$1,500,000
1894	55,000,000	2,500,000
1904	159,000,000	50,000,000

### Of these exports the United States took—

Raw silks and waste	\$30,400,000
Silk manufactures	6,100,000
Tea	5,400,000
Staple and matting	2,300,000
Porcelain and earthenware	1,000,000

followed by camphor, straw braid, wood chip braid, sulphur, tooth brushes and rice, ranging downward from \$620,000 to about \$300,000 each. It is one of the remarkable features of Japanese development that even while the recent war was in progress the commercial promotion of Korea by Japan not only never waned, but it even increased. The year 1904 was one of the best in Korea's history. The war helped rather than hindered trade, the commercial highways being held open. Cereals yielded large crops and sold high, both Japan and Russia buying. Labor was abundantly supplied with work at good wages. Much of this had to do with the movement of troops. This brought in millions of dollars of unexpected and unusual money. It is interesting to note that the Koreans never had so much money to spend and that they spent it freely; hence any improvement in Korea or in the east is bound to be followed by advantages to foreign trade. One disadvantage, due doubtless to the war and partly to the increased wages, was the increased cost of living. This advanced 50 per cent and in some cases fully 100 per cent.

Railroads were built in many parts at about \$50,000 a mile, fully \$8,000,

000 being expended thereon. The gross value of the foreign trade was a little more than \$26,017,487, of which \$13,701,295 was for imports from abroad. The exports reached \$12,406,192. The rest are set over against movements in foreign goods in and out of Korean ports in transit, etc. Railroad material for more than \$2,316,490 was entered. The best army of the year's figures leaves a large balance in favor of foreign lands and an adverse one against Korea. The mining of gold goes on apace, although a good deal of it, needed at home to help the banks and legitimate business interests, goes abroad as bullion. Last year's gold exports were \$228,500 less than those of the year previous—not a bad sign if it does not indicate a decreased output of the mines.

A large part of the banking business is in the hands of Japanese and is tending more and more toward complete absorption by them. Everywhere progress and prosperity are marching hand in hand. Natural hindrances to trade are being overcome by scientific methods worthy of the west or by expedients worthy of the east. For example, the shallowness of the river at Chempung long hindered the arrival of large vessels. This is to be obviated by running rails over bridges to two islands near deep water. The work is being done by the Japanese. Trains are to run from the mainland alongside of steamers docked on the deep water side of the islands. Rocks have been blasted, piers, docks, wharves, etc., built at great cost, but it is believed that the increase of business expected will more than make up for any probable expenditures. The latest population figures give Korea 6,000,000 people, including Ham Kung, a province in the north, under Russia before the war. Seoul, the capital, has 200,000 and is constantly increasing. There are already 50,000 Japanese in the kingdom.

### BACK YARD HYBRID.

Current Seeds Thrown From Kitchen Produce Strange Berries.

Mrs. F. M. Roll, a Sault Ste. Marie (Mich.) woman, purchased some common red currants at a grocery store and after making the fruit into pulp and straining out the seeds threw the latter from her kitchen window into the back yard, says a Sault Ste. Marie dispatch. From these seeds sprang up four or five shrubs, which were planted and cultivated in the garden along with other currant bushes. They grew rapidly, and twice this year they have borne fruit. The shrub is as much a vine as a bush, while the fruit is unlike anything ever seen at Sault Ste. Marie before.

It grows on stems, like a currant, and when immature is of a greenish cast. During the process of ripening it becomes red, at which stage its taste is bitter, with a flavor much like that of the cranberry. When fully ripened the fruit resembled a black cherry and in size is about midway between a large currant and a gooseberry. Its flavor then is delicious. It has not the odor nor taste of the black currant nor does it have the flavor of any of the currant family.

Some of the berries as well as the vines have been sent to Leo M. Geisler, in charge of the upper peninsula agricultural experimental station, who has not yet determined exactly what the fruit is, but will soon render an opinion. An advance or preliminary decision subject to change or confirmation is that the fruit is a new hybrid and a valuable horticultural product.

### Students From India.

The arrival of many Hindoos from India to enter as students at the Imperial university and schools of technology at Tokyo, Japan, has been noted lately. It was intended to celebrate the festival of the great Indian national hero Sivaji at Tokyo this year for the first time with great eclat.

### A Novel Competition.

A novelty in guessing competitions has been started by a Spanish paper. It offers a prize to the reader who names the princess who will be chosen by King Alfonso as his bride.

### Aid to White Wings.

Long skirts, which the women are to wear this winter, may not be sanitary, says the Chicago News, but they will assist in the movement for cleaner sidewalks.

### Japanese Use of Seaweed.

The seaweed, which goes to waste in the United States, is utilized in Japan for stiffening fabrics for conversion into vegetable isinglass.

### The Peace of Portsmouth.

All hail the prestige and the power Of great Columbia's name! The nations praise and glorify Her wisdom and her fame. For she has stilled the rolling drums And bade the cannon cease And planted in Manchuria The olive branch of peace.

Where on the shores of old Japan The shadows softly fall, Where pious Russians kneel before The thrones on the wall, Like fire are cast upon the air Ten million prayers arise To bless the land of liberty And laud it to the skies.

The source of blood and flame has passed, The storm of war is done; Peace is the banner of the cross, The banner of the sun. The ends of trade will now rebound, Tortured Arctics battered cease, While commerce mends with threads of gold The tattered battleflags.

The sword is sheathed, no more to reap A harvest of the slain; In undimmed brotherhood The world unites again. Oh, glory to America And honor to the man, Our president who joined the hands Of Russia and Japan!—Mitsunobu in London Weekly.

## COMBINE OF FARMERS

North Carolina Antitrust Congressman's Argument.

### PLAN TO BOOM COTTON PRICES.

Farmers Who Buy From Trusts Should Form a Trust, Says Representative Edward W. Pou—Nature Has Provided Means For Planter's Protection—Comfort For Many Homes of Men Who Toil.

Representative Edward W. Pou of North Carolina is in Washington advocating the organization of a farmers' trust, by which the amount of cotton to be raised each year may be limited, thus securing high prices for the staple, says a special dispatch from Washington to the New Orleans Times-Democrat. Mr. Pou is unalterably opposed to all industrial trusts and denounces the administration for failing to break up the unlawful ones, but he has come to the conclusion that the trusts are here to stay and so urges the agriculturists to get into the game with a trust of their own.

"Providence," said Mr. Pou the other day, "has given to the southern cotton planter the benefit of a natural trust, and if he will take advantage of it he will be able to live at ease for the rest of his days. Only about 2,000,000 bales of cotton can be raised outside of the south. The British manufacturers, aided by their government, have spent thousands of dollars trying to raise cotton in Africa, but little has come of their efforts, and today our cotton farmers of the south are masters of the situation if they will only use the power a gracious God has put in their hands."

"They can raise 10,000,000 bales and get 10 or 12 cents a pound for it, or they can raise 15,000,000 bales and get 5 cents a pound for it. They have the land. What per cent of North Carolina do you suppose is under cultivation? Only about 26 per cent. I examined the figures prepared by the census office showing the per cent of cleared land in each state. Here are the percentages of cleared lands: South Carolina, 29.9; North Carolina, 26.8; Georgia, 28.1; Alabama, 26.2; Mississippi, 25.6; Texas, 11.7, and Arkansas, 20.5."

"Now, much of this cleared land is planted in other things than cotton. So the southern farmers have land on which to raise 40,000,000 bales of cotton. I am glad that they are organizing. Every one of them ought to be in an organization, and on the 1st day of January in each year he ought to make known to the proper officials of his organization how much land he intends to plant in cotton. When the proposed acreage is added up if it appears that the amount of acreage will produce more cotton than the world will take at a profitable price then there should be a uniform cut all down the line."

"If we are to have trusts let us have one trust that will bring comfort to the thousands of homes of those who toil. No court, so far as I know, has yet declared such an arrangement to be in violation of law. Even if it were to be so declared the farmer should be allowed to remain in a trust so long as everybody he buys from is in a trust too."

### TIN LILY FOR PRESIDENT.

Italian Artist Who Wants a Job Makes Unusual Present.

After working every moment of his spare time for three months on the manufacture of a gigantic tin lily Pignatelli Pignatelli, an artist, recently sent the exquisite piece of workmanship to President Roosevelt, says a special dispatch from Connelville, Pa., to the Philadelphia Public Ledger. He hopes to win the president's favor and obtain a position in the navy yard at Washington.

A letter from Oryster Bay acknowledging the receipt of the lily arrived a few days ago from B. F. Barnes, acting secretary to the president. The lily stood six feet high and weighed about 150 pounds. It consisted of thirteen petals. On the inside and at the top of each of these were painted thirteen red, white and blue stars representing the thirteen original states.

Pignatelli is employed at the shops of the Baltimore and Ohio Railroad company.

### To Start a Poppy Farm.

Gustave O. Schorse of Milwaukee, a chemist, is endeavoring to secure forty or fifty acres of land near Denver for the purpose of planting and cultivating the Asiatic poppy. It is his purpose to plant as many acres as possible and by a system of solar evaporation extract the morphine and codine alkaloids and at the same time preserve the seeds of the plant, says a Denver dispatch. Under the present operation of chemists, including an incision in the uric capsule of the poppy, which allows all the juice to exude, to be gathered up after ten or twelve hours' standing, the seed is destroyed.

### Automobiles on German Mail Routes.

The German postal authorities, who have for some time been experimenting with automobiles, have decided to put these vehicles in use on rural delivery routes and have placed an order for several hundred of them with a large German automobile manufacturer, says the Railway and Engineering Review. In several districts where railroads are scarce and where passengers are still transported in postal stages the horse drawn stagecoaches are also to be replaced by automobiles.

### India's Standard Time.

Railroads in India recently adopted a standard time, which is five and a half hours ahead of Greenwich.

## DICTATOR

President Reyes Is Reported to Have Declared Himself.

Panama, Sept. 20.—It is rumored General Rafael Reyes, president of Colombia, declared himself dictator on Sept. 8 and imprisoned the members of the supreme court at Bogota. Mobs angered by this action attacked the presidential palace and were fired on by troops, who killed or wounded many of the rioters. The reports say that revolutions have been started in Antioquia and Santander.

### Challenges The Report.

New York, Sept. 20.—Diago Mendoza, Colombian minister to Washington, is staying at present in this city. When informed of the Panama dispatch he said: "I do not believe there is a word of truth in the report. I received a cable dispatch from Bogota two days ago, and it said the country was in complete and abundant peace, and that President Reyes was engaged in the reconstruction of the Colombian finances. If anything important had occurred I would have been informed of it. I am sure that there is no disturbance in Colombia."

### Cost Him His Position.

Washington, Sept. 20.—The failure of Captain W. H. Hotvise as master of the United Fruit company's ship Oteri to give assistance to the United States ship Sylph, which was disabled off the coast of North Carolina, on the night of April 12, has cost him his position through the revocation of his license by the United States steamboat inspection service. This action was taken by the inspection officers at Norfolk, Va., Sept. 12, and the correspondence was made public by the department of commerce and labor. The distress of the Sylph occurred while Lieutenant Evans was bringing the vessel up the coast from Florida, where it had been used by Mrs. Roosevelt and the White House children for a cruise.

### Big Liner Disabled.

Halifax, N. S., Sept. 20.—The North German Lloyd steamer Bremen, Captain Nierlich, from New York Sept. 14 bound for Bremen, was towed here by the British tank steamer Lucigen, from Shields Sept. 5 for Philadelphia. The port tailshaft of the Bremen broke on the afternoon of Sept. 15 and the accident damaged the starboard propeller. Attempts which were made by the engineers to repair the damage were unsuccessful, and the steamer rolled helplessly in the heavy swell. At 8 a. m. Sept. 16 the Lucigen was sighted and answered the Bremen's signals of distress.

### Uncle Sam's Pile.

Washington, Sept. 20.—The count of the cash, notes, bonds and other securities in the treasury of the United States, incident to the transfer of the office of United States treasurer from William Ellis S. Roberts to Charles H. Treat, was completed and found to exactly agree with the treasury books. The total of July 1, 1905, was found to be \$1,250,589,278.58. This total is an increase of \$462,672,839.41 over the amount transferred by D. N. Morgan, the outgoing treasurer, to Mr. Roberts on July 1, 1897.

### Brothers in a Duel.

Mount Ida, Ark., Sept. 20.—Sheriff Scott received news by telephone of a tragedy at Silver City in which two brothers were the principals. One of them is dead from a gunshot wound inflicted by the other. The dead man is Albert Craddock and the slayer is George Craddock. The two brothers were partners in a mill and mercantile business at Silver City. Albert Craddock, the dead man, was also a justice of the peace.

### OVERTURNED

Was an Automobile When It Crashed Into a Telegraph Pole.

Trenton, N. J., Sept. 20.—Robert E. Kidd of Staten Island, N. Y., was killed, and S. Himmam Bird of New York city was seriously injured in an automobile accident at Hightstown. The machine was completely overturned by running into a telegraph pole. Bird is a stepson of Charles T. Cook, president of the Tiffany company, New York, and is the president of the senior class of Princeton university. Kidd was a well known automobile racer.

### Gaynor Declines.

New York, Sept. 20.—The Citizens' union committee of 16 on conference held a meeting in R. Fulton Cutting's office and talked over possible candidates for mayor, without coming to any agreement. A letter from Justice Gaynor instructing that his name was not to be used in the conference was read at the meeting.

### Town Guttered.

Marysville, Cal., Sept. 20.—Almost the entire business section of La Porte, a town in the mountains, 60 miles east of Marysville, was destroyed by fire that started in the Chinese quarter. The loss is about \$100,000, partly covered by insurance.

### OFFICERS CHOSEN

By the Army of the Cumberland, in Reunion at Chattanooga.

Chattanooga, Tenn., Sept. 20.—General Gales P. Thurston of Nashville was unanimously elected president of the Army of the Cumberland, in annual reunion here. The other officers chosen were: Corresponding secretary, Orland A. Somers; treasurer, Brigadier General Frank G. Smith; United States army; historian, Colonel G. C. Kniffin; executive committee, General James Barnett, chairman; General C. H. Grosvenor, chairman; J. G. Parkhurst, Captain H. S. Chamberlain, Captain J. W. Foley, General E. A. ### WEDDINGS.

#### OWEN-FOLLETT.

Mr. John A. Owen, a well-known merchant of Granville, and Miss Clara Follett, daughter of Dr. and Mrs. A. K. Follett, of the same place, were married on Tuesday evening. The ceremony took place at the parsonage of the St. Paul's Lutheran church, this city, and was performed by the Rev. J. C. Schindler, in the presence of several of the intimate friends of the contracting parties at 7 o'clock. At the conclusion of the ceremony the newly-married couple left on the 8 o'clock train for a trip to Chicago and up the lakes. They expect to return to Granville in about a week, where they will make their future home. They have the best wishes of all their friends.

Proposed North End Chapel. There will be a meeting in the North End Tabernacle on Channel street, east of Maple avenue, Thursday evening at 7:30, to consider the advisability of erecting a chapel for religious services this fall. All parties interested are cordially invited and urged to be present.

Cause of Sickness. A prominent physician calls attention to the fact that disease of cats, chickens and hares are the cause of much sickness. He says he verily believes that most of the diphtheria and kindred diseases are spread by diseased cats and chickens. The disease called "roup," incidental to chickens is nothing less than diphtheria, and as dangerous to humanity as dynamite.

John P. Awaits the President. A prominent citizen of the Newark Machine company, C. R. Wheeler and W. E. Joseph, comprising a subcommittee of the Knights Templar committee on entertainment, have selected a souvenir for the women who shall visit the conclave this year that will be in the nature of a surprise. They made an exhaustive search of jewelry stores of Columbus and other cities before deciding on the badge the women should receive at the Columbus conclave next month.

Salaries of Teachers. The question of salaries for country school teachers has been presented in a unique way in Illinois, where a number of teachers have been compelled to resign because they could not make arrangements for their board and room. The farmers in the vicinity of the schools have raised the price of these accommodations to a figure out of all proportion to the salaries paid, and the teachers have said that if they must pay more, they must receive more. The outcome will be interesting.

Opening Here Saturday. Newark people regardless of political affiliations, are preparing to entertain the visitors who attend the Democratic opening Saturday so well and so hospitably that all will be impressed with the city and its people. The subject this evening is "Mt. Sinai and the Wilderness." Both the blackboard and maps are used in illustrating. The present lessons in the Sunday School being from the Old Testament make these lectures especially interesting.

Levi Bevard Attends Funeral. Levi Bevard, who is charged with the murder of his mother-in-law, Mrs. Werts, attended the funeral of his 8-months-old daughter, which took place at 2 o'clock Wednesday afternoon from the home, on the W. C. Hall farm west of Newark.

Special permission was given to Bevard by the court to attend the funeral. Officer George McClure was detailed to accompany Bevard, and remained with him every moment of the time he was absent from the jail.

Officer McClure received Bevard at the jail about 12:30 p. m. and escorted him to the Bowers & Criss Brothers undertaking rooms, and at 12:50 the pallbearers' coach drove up. Bevard, McClure and an Advocate reporter got in and were driven to the home of Mrs. Elizabeth Stewart in Maple avenue, where four little girls who acted as pallbearers were waiting.

The little girls were Helen Nichols, Mary Nichols, Dollie Warrington, and Grace Stewart.

The conduct of Bevard showed that he was deeply stricken by the bereavement. While sitting in the undertaker's office awaiting the arrival of the coach, Officer McClure, who was in citizens clothes, asked him to have a cigar.

Bevard took the proffered cigar, remarking: "Yes, I sometimes smoke," and put the cigar in his mouth. He lighted it but while riding up Hudson avenue threw it out the window of the coach. Tears were in his eyes and the man appeared completely broken down.

He did not speak a word during the ride to the Stewart home, except monosyllabic answers to questions, which had no bearing upon the crime with which he is charged.

The baby's body was taken to Vanatta, where the funeral services were conducted by Rev. H. Newton Miller of Newark.

Crop Bulletin.

According to the crop bulletin for Ohio issued by the United States weather bureau a good crop of corn will be gathered in Ohio.

The ground is in excellent condition for the seeding of wheat and work has begun in most districts. Although some delay has been occasioned by the wet weather.

Some rye has been sown while buckwheat is filling well in the north and ripening in the south.

Potatoes will be less than the average yield due to blight and decay. The apple crop is poor while peaches are not as plentiful as usual. Garden crops are good.

Do not let the little ones suffer from worms or other disturbing skin diseases. No need for it. Doan's Ointment cures. It forms the most delicate skin. At any drug store, 2c each.

## Weak Candidate for Mayor.

"Crilly will have a walk off," is an expression heard today from scores of dissatisfied Republicans who hoped their party would nominate a man for Mayor who could have had some prospect of election. One malcontent was vigorous in charging that Democratic secret influences helped to contribute to McCleery's nomination, so that "the Republicans would have a weak man at the head of their ticket, and one whom the Democrats could easily defeat." Not in Newark's history has so much soreness and disappointment resulted from a political convention as exists today over the Republican convention of Tuesday night.

That any Democrat could exercise any influence in Republican circles to nominate a weak man, is, of course, simply nonsense. But it has been apparent for several days to the looker-on of ordinary intelligence that McCleery would be the Republican nominee for Mayor, and Democrats familiar with the political situation in the city certainly hoped for this result.

That "Mayor Crilly will have a walk off," is the opinion of many more Republicans than those that give open expression to their conviction. The fact is pretty well established in the public mind that the duties of the office of Mayor under the new municipal code are so complex that a man familiar with the law is absolutely necessary to properly understand those duties and discharge them.

**No Appetite**  
Means loss of vitality, vigor or tone, and is often a precursor of prostrating sickness. This is why it is serious. The best thing you can do is to take the great alterative and tonic **Hood's Sarsaparilla** Which has cured thousands.

them. That Mayor Crilly is familiar with the law is a fact that cannot be disputed by his opponents, and this fact demonstrates his qualification for the office of Mayor as being eminently superior to that of the Republican nominee.

The postmaster's candidate, "Squire C. C. Forry, was the best qualified for the office of any of the candidates before the convention and Dr. Legge was undoubtedly the most popular of the three with the mass of voters. In nominating Dr. McCleery our friends, the enemy, have made the election of Mayor Crilly practically certain.

The Republican city and township ticket, nominated as a whole, could not be more to the liking of the Democrats, for it is a weak one from top to bottom. This is apparent to many Republicans now, but its weakness will develop more and more as the campaign progresses. Every Democratic candidate will be elected by an ample majority.

Republican candidates for Mayor and other offices who were turned down at the city convention last night should not allow themselves to feel sore and disgruntled or imagine that they are the victims of cruel fate. Rather let them thank the Lord and rejoice that they have escaped the defeat which would surely have been their portion if they had been so unfortunate as to be placed on the Republican ticket.

Strong exception is taken by that dyed-in-the-wool Republican paper, the "Ohio State Journal," to Senator Dick's announcement that the paramount issue in the Ohio campaign is the tariff. It in effect declares that State issues are just now paramount, and it ventures the prediction that the orators who talk about standing pat on the tariff to their audiences in this campaign will find their hearers given over to yawning. Apparently, Senator Dick's attempt to save the day for Governor Herrick by switching from State to National questions is not likely to meet with any success. The manner in which Chairman Garber of the Democratic committee ridicules Dick's scheme to make the tariff an issue, printed in another column today, cannot fail to be commended by every fair minded thinker, regardless of his political affiliations.

## HERRICK CONDEMNED

By the St. Clairsville Presbyterian Session at Cambridge.

Cambridge, O., Sept. 20.—The St. Clairsville Presbyterian session at the First Presbyterian church of this city, passed resolutions last evening condemning Governor Herrick for his indifference to temperance reform.

Kindly Take Notice that Ely's Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal atomizer. The price, including a spraying tube, is 75 cts. Sold by druggists and mailed by Ely Brothers, 56 Warren Street, New York.

## RACE SUICIDE

Appeal Is Made To President's Wife To Induce Mr. Roosevelt To Modify His Views.

Pittsburg, Pa., Sept. 20.—Pittsburg philanthropic women take exception to President Roosevelt's race suicide theory.

Mrs. S. E. Lippincott, superintendent and secretary of the Society for the Improvement of the Poor, after consultation with other members of the society has decided to write to Mrs. Roosevelt to persuade the President to modify his position. The letter will be a protest against the increasingly large families of the irresponsible poor.

This determination became crystallized when a woman who had been deserted by her husband and is penniless applied for aid. She is the mother of 17 children seven of whom are dead. Another is in the institution for Feeble Minded at Pottsville, Pa. Although reduced to extreme poverty by the desertion of her husband the woman wants to apply to the President for a medal as an example of his ideal wife and mother. Mrs. Lippincott said:

"What with the wretchedness and distress of these big families raised by the shiftless poor, the equally large families brought by immigrants to this country, and the menace they are to our nation and to society, I propose writing to Mrs. Roosevelt an appeal to her womanhood against this inhuman and unchristian attitude of unwelcome conditions.

## METHODISTS REBUKE HERRICK AND PUT BRAND ON BOSS COX

Resolution Concludes With the Words "We are Forced to Declare Ourselves as Unalterably Opposed to the Re-election of Myron T. Herrick"—Cox's Name Offensive to Christians.

Dennison, Ohio, Sept. 20.—The Ohio M. E. conference has declared itself "unalterably opposed to the re-election of Governor Herrick." The conference also noted "with pleasure that the Brannock law in its present form is a distinct advance in temperance legislation." The report of the temperance committee contained a vote of approval of the action of the governor in vetoing the Chisholm bill permitting pool selling, but this did not meet the approval of the members and it was voted out without a dissenting voice.

The report was submitted by Rev. O. J. Moore of Cleveland, who tried to speak in support of the resolution on the Chisholm bill, calling attention to the fact that the Cincinnati conference had commended the governor for this act, but the conference refused to hear him, one minister calling out, "We don't care what the Cincinnati conference did."

THE NAME OF GEORGE B. COX WAS STRICKEN FROM THE RESOLUTION ON THE MOTION OF DR. MORRISON, WHO URGED THAT THE NAME SHOULD NOT BE MENTIONED IN A CONGREGATION OF CHRISTIANS.

The conference then passed the following resolution: "We are pleased to note that the Brannock law in its present form and operation is a decided advance in temperance legislation and we give unstinted praise to members of the legislature who secured its enactment. But it is with a sense of humiliation that we record the fact that but for the pernicious interference of our governor with the legislative branch of the government, in his threatened exercise of veto power, a much more satisfactory and efficient law would have been possible. By permitting himself to become a candidate for re-election against the protest of the Christian people of the state he has made his own blunder, rather than the record and principle of the party to which he belongs, to be the dominant issue in the present gubernatorial contest. We are forced to declare ourselves as unalterably opposed to the re-election of Myron T. Herrick."

## PEOPLE ROBBED FOR CAMPAIGN CONTRIBUTIONS

District Attorney Jerome announces that he will examine the record in the New York insurance investigation, and consider whether the disclosures of Vice President Perkins concerning campaign contributions from trust funds constitute a criminal offense committed in such manner as to render liable to punishment the guilty official. Suit for restitution is promised against offending insurance corporations by the attorney general of New York. The latter process is indispensable, for widows and orphans are the beneficiaries of the sums diverted to aid financial partners in using a party to advance their personal interests.

But it is not astounding that the sole excuse and palliative for this high-handed outrage upon the whole electorate of the Nation, forgetting for the nonce the policy holders, are that it was "mistaken zeal," but "never was an error of judgment turned into a better channel"? Is this compounding of felony so far as attempt to mitigate by argument a crime goes, or what is it? All over this land the humble payer of insurance premiums now knows that without consultation with him, without regard to what his own political views may have been, the funds he committed in trust were squandered in aiding, perhaps, the very trusts and syndicates, he is assured, are the intimate causes of all his struggles against high prices and the unfair conditions of living.

How the revelations must shock Mr. Roosevelt, so sensitive to matters that are moral! But lately the President reached the lofty and safe position of abstaining from discussing economic subjects to the dismemberment of his party, and of reserving his sermonettes for the purely ethical questions that assail mortals. How deeply convulsed must his soul be that this fly in the ointment, this speck in the billowy vastness of his "popularity," should appear just as the last echoes of his campaign rebuke to Judge Parker had scarce subsided. The candidate of Democracy charged and now the proof stands out large, that corporations were contributing to the defeat of his party.

"I was in such a state that my friends were alarmed about me, and I was advised to leave this climate. Then I tried Peruna, and to my great joy found it helped me from the first dose I took, and a few bottles cured me."

"It built up my constitution, I regained my appetite, and I feel that I am perfectly well and strong."—Mildred Keller.

## ELDER WHITE IS VISITING HERE

Aged Minister, Who Years Ago, Was Prominent in This Section—Now 82, But Still Active.

Elder Elijah White, a Disciple minister, who is temporarily located in Columbus, is spending a few days in the city visiting old acquaintances. Some twenty-five to forty years ago he was one of the most popular preachers in Morgan, Licking and Knox counties. He organized the church at Rocky Fork, Eden and Fallsburg, and preached at Perryton, Bladensburg, Dennis Chapel, Union Grove and many other points in Knox county. It is just thirty-seven years ago this month since he held a two-days public debate at Eden with the late Rev. A. C. Hanger of Utica. While Mr. White never preached here yet there are a great many persons living here now who formerly heard him elsewhere, some of whom were united in marriage by him. He is 82 years old, but very strong and active yet. Since leaving Ohio, about 25 years ago, he has been in Indiana, Iowa, Missouri, and Wisconsin. In the latter state he had a long siege of typhoid fever. Since then he has done but little speaking. Like many of the pioneer preachers his education was limited, yet he had a thorough knowledge of the Bible, a fine physique, strong personal appearance, a pleasing and sympathetic speaker, an excellent singer, all of which made him a very acceptable minister. A person is impressed now with his wonderful and phenomenal memory, as he sits and listens to his experience of sixty-three years in the church, beginning in Pennsylvania and extending over several other states.

## ELUDED

The Deputy En Route To the Madhouse and the Boy Shot Himself in the Heart.

Finlay, O., Sept. 20.—Barney Bertram, the son of Simon Bertram, a clothing merchant, committed suicide yesterday afternoon by shooting himself in his father's store, where he was taken by an officer after the young man had been adjudged insane. The officer was en route with his charge to the Toledo State Hospital. Deputy Sheriff Johns went to the Bertram residence, on Lima street, and ordered the youth to walk with him in order to get him started on the Toledo journey. In the store the boy was allowed to go upstairs to get a handkerchief, as he said. One of the officer's sight young Bertram fired a bullet through his heart. The mother is in this frantic with grief.

## FRAZEYSBURG.

The thirty-fifth annual convention of the Woman's Foreign Missionary Society of the Zanesville district, which met here last Thursday, was an interesting and successful meeting.

Mrs. H. Ayers of Mexico, and Miss Leonora Seeds of Japan, were the missionaries present. A large number of members from the district auxiliaries were present.

Mrs. Frank Tarimie and daughter, Anna, made a business trip to Zanesville, Wednesday.

Mr. and Mrs. Walter Hugen spent a part of last week with Newark friends.

Mr. Clyde Ogel left Thursday for Chicago Junction, where he will be employed in the B. & O. shops.

Mrs. Emma Lovell of Newark, spent Sunday with her parents, Mr. and Mrs. Chas. Untied.

Mr. Charles Robinson of Hanover, spent Sunday with friends in Frazeysburg.

Miss Grace Reeder left Monday for Zanesville, where she expects to attend school this winter.

Miss Marie Fairall of Perryton, spent Sunday with Bertha Diggins.

Mrs. Frank King and Mrs. Wright Lecky spent Sunday in Newark.

Mr. and Mrs. E. L. Criss of Newark, spent Saturday and Sunday with the latter's parents, Mr. and Mrs. J. G. Hamilton.

C. M. Gardner spent Sunday in Nasport.

Wm. Woodruff went to Pittsburg Saturday.

Mr. Allen Cox of Columbus, was in town a few days last week.

## LICKING.

The farmers in this community are rushing their corn cutting and are busily preparing their wheat ground for seeding. But few have sown yet.

A Newark automobilist met with quite a wreck on one of our bridges lately that took several hours to repair. If some of the auto drivers were a little more considerate of others they would have more sympathy from our people when they meet with accidents. There has been some reckless driving by chauffeurs on our roads this season. But we are glad to say they are not all so.

Mr. George Meyers of Kirkersville, whose wife was buried recently in Licking cemetery, has, with a friend, been watching by the grave each night since the interment.

Harold McCall was down from Columbus Sunday visiting his parents and others in this community.

Misses Zoia Behout and Carrie Fortner are teaching our schools—the former at the Griggsby and the latter at Sugar Loaf.

A fine well, No. 3, was drilled in on the Baker farm a few days ago.

Pastor McCall visited Mrs. Van Brunt near Millersport last week. She is confined to her bed most of the time.

A large number of our young people are attending school away from home this year. Miss Lena McCall has entered the State university, and Roy Bausher will soon return to Denison to begin his third year.

The next Sunday school convention of Union township will be held with the Lakeside school. The time of meeting will be announced later.

The friends of Miss Emma Armen regret to learn that she is still quite poorly, though it is hoped some better.

Mrs. McCall has been sent for to visit her father, Mr. John Hutchins of Caldwell, O. He is reported as being in feeble health.

The Licking church decided to meet with the Baptist church in Thurston in a religious meeting October 6th.

The social at the patronage last Friday evening was more of a success than was thought possible considering the stormy evening. About forty persons were present and the young people reached enough to finish paying for their hymn books.

The notion that interferes in some of our minds is not sustained by recent experiments made in Germany. It was found that a good hair oil, for example, remained their vitality in even after 300 days.

But such notions are removed for the good of their minds and for the place of the hands above all other charms.

Al Schweitzer is in great demand out west. He received another letter this morning from Sioux City in which he is made an offer which is better than the one received from the Denver club. He is offered the same salary which the Denver people named and in addition is offered his transportation both ways. Schweitzer is a fast man and his services are in demand. Still, if he wants to stay in Newark next year, he will have a chance to make better money than he is getting this year.

Joe Doyle caught a foul tip on the thumb of his right hand in the game with the Pirates Monday and that member is in poor shape for today's game with the Cardinals. McDonald is still suffering from an injury of the hand received at Bellville, but it does not seriously hamper his playing. Lefty Snyder decided that he would don a uniform again today whether he entered the game or not. Al Schweitzer's bad ankle still bothers him to a great extent but to see him work one would think he was never injured.

The St. Louis Cardinals arrived in the city about 10 o'clock Wednesday and registered at the Warden. The team spent the night in Columbus where they played Tuesday, defeating the Senators 3 to 0. In this afternoon's game at Idlewild park, the Cardinals will have an easier time putting it over the local team as several are in a crippled condition. The only hope for Newark is that the visitors will try out another recruit from the Three I league and perhaps we can win out.

"Big Bill" Miller, the left-handed guard of left field, is again to don a Mogul uniform. "Big Bill" is soon to close the season with Buffalo, in the Eastern league, where he went from this city on July 5. He will be welcomed back with his bingles, base stealing and run-getting abilities. The lanky gardener will join the Moguls in Canion next Monday.

## TRUST COMPANY — IN THIS ACTION

INTIMATES THAT NEW STRUCTURE MAY BE BUILT ON PUBLIC SQUARE.

Petition Claims Mr. Eli Hull "Tied In" To West Side Building Without Permission To Do So.

The Newark Trust company, Henry S. Fleck and others, have commenced suit against Eli Hull. The plaintiffs say that they are the owners of a building on Third street, being the "Pataskala" building, which was constructed about 50 years ago, and that neither the defendant nor his wife, nor any of the prior owners of the lot adjoining the "Pataskala" building on the south ever had any right in the building, or in any other way. That notwithstanding, the defendant, in 1902, without permission, in reconstructing the building adjoining, inserted timbers into the "Pataskala" building, and joined their building to the "Pataskala" building; that the Hulls have since wrongfully used the "Pataskala" building; that the work of inserting the timbers was done in the night time, without the knowledge of the plaintiffs. They say that the action of the defendants has caused injury of a permanent nature to their property, and that something is liable to cause trouble and litigation in case they should desire, as they may, at no distant day, to erect a new and costly building on the premises; that the building of the defendant is only two stories in height, and is inexpensive and ought to be removed to give place to a better building.

The plaintiffs ask that the obstructions to their proper enjoyment of their real estate may be removed; that defendant may be enjoined pending suit, from using plaintiff's building as a support for his building. J. R. Davies, attorney for plaintiffs.

### VERDICT OR DEFENDANT.

Burlington, Vt., Sept. 20.—"We find a verdict for the defendant to recover costs," was the reply of the jury in the slander suit of \$5,000 brought by Rev. Philippe Girard, a Syrian priest, against Mrs. Seffie Prior, a prominent milliner. The trial had been on a week and some sensational testimony had been introduced by the defendant upon the reputation of the plaintiff as a man. Rev. Girard a year ago, at the time of his detention by Mrs. Prior and others charged with stealing the sacred vessels from St. Mary's Cathedral brought suit for damages of \$5,000 against Mrs. Prior for false arrest losing the case.

## SISTERS WEDDED THE SAME DAY

Surprised Each Other By Filing Suits For Desertion at Same Time—Unparalleled Case.

New York, Sept. 20.—The almost unparalleled matrimonial tangles of two beautiful sisters, who figured in a double wedding, and who caused the arrests of their husbands on the same day for desertion, came before Magistrate Higginbotham, in the Lee Avenue Police Court, Williamsburg, today.

The cases were made more strange by the fact that neither of the sisters had told the other of her trouble, and they were as much surprised as the magistrate when they came face to face in court, each lodging a complaint against her husband.

The young women were Mrs. Ray Harrison, of No. 117 Manhattan avenue, and Mrs. Eva Seldman, of No. 80 Throop avenue.

Mrs. Harrison's husband is a photographer at Far Rockaway, and, according to his young wife's complaint, deserted her July 30, because she refused his demand for a dowry of \$7,500.

Mrs. Seldman married a physician, Dr. Abram Seldman, whose affection continued to burn until September 14, when, as Eva said, a fund of \$7,500 given him by her became exhausted, whereupon he disappeared.

Magistrate Higginbotham labored hard to reconcile the young couples, and in furtherance of this purpose continued the Harrison case to October 30, ordering Harrison to pay his wife \$7.50 a week until that time.

Seldman declared he had invested the \$7,500 entrusted to him by his wife in real estate and promised to deed the property to her. He was given until tomorrow morning to fulfill his promise.

## WIVES

Died Five Months Apart—Both Mesdames Hadley Were Rich and One Resembled the Other.

San Francisco, Cal., Sept. 20.—The death here the other day of Mrs. Geo. G. Hadley, under circumstances which the authorities are still investigating, revealed that she was the second wife of Hadley, who is a rich West Virginia coal operator, and that in appearance she was so much like the first Mrs. Hadley as to suggest the idea of close relationship. Hadley, however, denies that they were in any way related, though they may have been so much alike as to be mistaken for twins.

The records show that Hadley married his first wife March 8, 1895. Her name was Mrs. John A. Yates, of Detroit, Mich.

On April 25, Mrs. Hadley died in this city under peculiar circumstances. Her body was cremated.

On July 26, Hadley married Mrs. Harriet H. Hoos, of Los Angeles. The second wife of Hadley died at the Bon Air Apartment House in this city on September 15. The stomach of the woman was sent to the city chemist to be analyzed.

Both wives of Hadley were natives of New York. They were wealthy, and Hadley says they were sweethearts of his younger days.

So sudden and unexpected was the death of the second Mrs. Hadley that the case was reported to the coroner, whose dissections City Chemist Booth undertook an analysis.

Newark Church Asks For His Return By Conference—Minister Attends the Meeting.

The last business of the conference year was held Monday night at the First M. E. church.

A report was made which showed a large increase in the membership of the church, as well as the fact that the church was out of debt and had a balance in the treasury.

It was unanimously agreed to ask the conference which opened at the King Avenue church in Columbus today, to return Rev. Mr. Sparks to this pastorate.

Mr. Sparks left Wednesday for Columbus to attend the conference.
